Creative Solutions to Engage Attendees – Semi-Virtually

Should I host a Hybrid Conference?

Did you cancel a conference? Are you concerned with keeping a remote audience engaged? Do you want to build confidence while still building value in your messaging? Are you new to virtual meetings and need a resource of experts?

If you answered yes to any of these questions...a **Hybrid Conference is the perfect solution!**

Live! Casino and Hotel can be your solution to social distancing, the need to carry on with conferences and still have all attendees near and far feel included! Let us take care of the technical part, and you can plan just as you usually would.

We will create your own customized, web-based production platform that can be broadcast anywhere in the world. This content will be available for use for up to one year upon conclusion of your event.

Pre-recorded and live video feed can be filmed throughout our fabulous hotel and event center and broadcast "LIVE!" to your audience! It's live, interactive and the easiest way to get everyone together.

Standard packages include platform creation, a day for setup and rehearsal and the actual live event. (Pre-production packages are also available!)
